OUTDOOR LCD PORTABLES / LCD

43-inch Motorized Double-sided LCD Display

A 43-inch dual-face mobile LCD format with a motorized opening arrangement, for buyers who need to evaluate service access alongside two-direction promotional content.

Generated product illustration. Final appearance and selected configuration require confirmation.

Installation: Floor-standing

PARAMETER	PUBLISHED VALUE / OPTION
Environment	Outdoor project · exposure and enclosure approval required
Display technology	LCD
Screen size	43 inches per face
Screen layout	Double-sided
Mechanism	Motorized opening configuration
Power planning	Rechargeable battery configuration

Product highlights

• Plan promotional content for two approach directions.

• A motorized opening concept changes how service access is arranged.

• Evaluate mechanical clearances and operator controls with the cabinet drawing.

Specification notes

Planning specification: confirm the selected panel, enclosure, battery and software in the written quotation. The generated studio image illustrates the format and finish; it is not a weather test or a delivered-unit photograph.

Application and deployment planning

Applications: Managed retail entrances · Two-direction event approaches · Promotional forecourts

Content: Prepare a separate visual hierarchy for each approach. Specify whether the two sides repeat the same campaign or need independent schedules and playback.

Deployment: Keep opening and movement clearance outside pedestrian routes. Confirm actuator travel, safe operating procedures, manual recovery and service access before approving the mechanism.

Confirm before ordering

- Actuator specification, opening travel, obstruction protection and recovery procedure
- Enclosure test documents, connector protection, ambient temperature and placement limits
- Battery chemistry, capacity, charge time and runtime at the agreed brightness

Warranty and project support

2-year factory warranty. Coverage, start date and service arrangements are documented in your order agreement.

Factory location: Bao'an District, Shenzhen, China. Contact us for the street address and a visit appointment.

Warranty scope and support procedure

Document basis

This sheet compiles the specifications and planning information published on the product page for this edition. Pending or configuration-dependent items remain subject to written confirmation; this is not a test report, certification or final order specification.
