ULTRAWIDE LCD DISPLAYS / LCD

Shelf-edge LCD Bar Display

A stretched LCD signage family for shelf edges and narrow retail structures, with screen length, mounting rail and multi-display publishing specified around the fixture.

Generated product illustration. Final appearance and selected configuration require confirmation.

Installation: Wall-mounted

PARAMETER	PUBLISHED VALUE / OPTION
Environment	Indoor
Display technology	LCD
Display format	Stretched horizontal LCD
Screen size	Custom format · active width and height to specify
Installation	Shelf-edge rail or fixture mounting
Content layout	Ultrawide artwork matched to selected pixel canvas

Product highlights

• Use narrow fixture space for digital product storytelling.

• Select active width and height around the actual shelf.

• Coordinate screen groups, cables and content publishing with the fixture plan.

Specification notes

Planning specification: confirm the selected panel, enclosure, battery and software in the written quotation. The generated studio image illustrates the format and finish; it is not a weather test or a delivered-unit photograph.

Application and deployment planning

Applications: Supermarket shelf edges · Retail gondola fixtures · Exhibition product shelving

Content: Design directly to the selected pixel width and height. Use short product animations or imagery repeated across segments; do not stretch a conventional poster to fit the strip.

Deployment: Provide shelf rail sections and available mounting depth. Check loading access, cable concealment, power distribution, heat clearance and how screens are replaced without dismantling the fixture.

Confirm before ordering

• Active dimensions, native pixel canvas and mounting rail drawing

• Brightness, viewing angle and suitable shelf position

• Player grouping, network access, software licences and service access

Warranty and project support

2-year factory warranty. Coverage, start date and service arrangements are documented in your order agreement.

Factory location: Bao'an District, Shenzhen, China. Contact us for the street address and a visit appointment.

Warranty scope and support procedure

Document basis

This sheet compiles the specifications and planning information published on the product page for this edition. Pending or configuration-dependent items remain subject to written confirmation; this is not a test report, certification or final order specification.
